**WORKING TOGETHER FOR OUR  
COLLECTIVE FUTURE**

# Connect, Contribute & Collaborate

Humanity must build a new way to connect, contribute & collaborate, in order to make the deep changes we need.

## What is Kune?

Kune is an Irish-led social platform built with purpose .

Kune means "together" in Esperanto. It is a new collaborative social platform designed to support & accelerate social action to create a more inclusive, regenerative society and better world. It enables purposeful global and local collaboration, both online & off, in a science based, positive & outcome orientated culture.

It is purpose built to connect local, national, sectoral, and global change and facilitate collaboration across and between these levels. It connects people within networks of focused micro-communities to support purposeful projects & initiatives.

To achieve this, Kune combines..

- the connectivity of **LinkedIn**
- the collaboration of **Wikipedia**
- and the focused, place-by-place energy of **The Lions Club** or the **Chambers of Commerce**

# HumanityPact Concept

Many people talk about saving the planet. But climate change and biodiversity collapse do not threaten the planet, they threaten us. As global temperatures continue to rise, it will become more and more difficult for our societies to function, threatening our survival as a species.

HumanityPact is about coming together to find and enact solutions to these and other challenges that threaten humanity. The challenges we face are wicked and complex and will require multilevel and multiangle approaches to solve. Therefore, we have designed HumanityPact to help facilitate cooperation and collaboration both within and between the different layers of society to catalyse change so that humanity can not just survive, but thrive.

The world and our future is in our hands.

# Education & Knowledge

Our ability to learn and share information is why we have been so successful as a species. It is our superpower and will determine our future.

Universities and colleges have for centuries been at the heart of some of humanities greatest progress. We need that now. We must leverage our halls of knowledge, the power of science, and harness all the positive energy of the worlds youth to push for and create change.

# Industry & Business

Business is uniquely well placed in the 21st Century to **be a partner as well as a funder in bringing greater peace and prosperity**. Using **business mindsets, approaches, procedures** and by **measuring outcomes** we are bringing together the very best of business.

And the **benefit to business** goes far **beyond positive pr** but allows **employees** to use all their **skills for social good** leading to a **more driven, happier more successful workforce**.

# HumanityPact Multipliers

The activities, causes, groups, or shared beliefs that bring us together, have a multiplying affect that motivate and challenge us to push ourselves to do more, to do and be better.

**WeCanGlobal**, a distributed network of place-based communities designed to support citizen-led collaboration and change.

**17Goals1Future**, specialist communities that support and connect action on the UN Sustainable Development Goals (SDGs).

**HumanityPact**, a global commitment and vision for how we can work together to make a better world.

**All MissionPowered.**

# HumanityPact

**Inviting you, your family, your friends, your neighbours, your colleagues to join us and work together for humanity.**

**We are one human race with one planet, together we can make a better world for current and future generations to share.**

## **TOGETHER WE CAN**
