

A group of five diverse young adults are sitting on a wooden bench against a dark, textured wall. From left to right: a man with a beard and glasses wearing a blue blazer over a white shirt, a woman with long dark hair in a white shirt and grey pants, a woman with curly dark hair in a grey sweater and blue jeans, a man with glasses in a blue denim shirt, and a man with a beard in a white shirt and a striped vest. They are all smiling and looking at each other. The man in the blue denim shirt is holding a laptop, and the man in the striped vest is holding a smartphone. The woman in the grey sweater is also holding a tablet. The text "KUNE. REMAKING SOCIETY, TOGETHER." is overlaid in large, bold, white capital letters across the center of the image.

KUNE.
REMAKING SOCIETY, TOGETHER.

KUNE is a Call to Action

- Our lives entirely depend on nature, but we are destroying it.
- Earth cannot sustain infinite growth; our economic system is broken.
- We're collectively manipulated by agenda-driven media & platforms.
- Solving these issues demands immense change from individuals, communities, businesses and countries.
- Everyone has a part to play, based on their situation & abilities.
- But, with so much to do, it's hard to find where you can best make a difference.

Our Vision

- By working “Together” in far better ways, we will create well-informed, just, democratic, kind and sustainable societies globally. You, we, all win.

Connection, Collaboration, Context

Humanity must build a new way to connect, contribute & collaborate, in order to make the deep changes we need.

BIODIVERSITYGLOBAL
kune /

We are killing off countless entire species and decimating others.

This is ethically unforgiveable – and it's also critically harmful to us.

Biodiversity collapse is a core threat; it also accelerates the climate crisis.

The oceans and land are natural carbon sinks and must be used as such.

Better forms of farming & fishing can feed us while protecting nature.

BiodiversityGlobal serves those who are working to bring us back into balance & partnership with nature.
